<p><b>Determinate:</b> a compact height (generally 3 - 4') and stop growing when fruit sets on the top bud. Tomatoes ripen at approximately the same time (usually over period of 1- 2 weeks) and require a limited amount of staking for support. Suited for container planting. Don't prune.</p> <p><b>Indeterminate:</b> will grow and produce fruit until killed by frost; can grow 6-12' tall. Will bloom, set new fruit and ripen fruit all at the same time. (Go to <a href="http://Tomatofest.com">Tomatofest.com</a> for more information)</p>
